

Liberty

The 3.6M Liberty with its high freeboard design, high stability ballasted centreboard and unique reefing system, provides safe and stable performance sailing that can be enjoyed in a wide range of wind and sea conditions

An ISAF Class sailed in 15 countries, the Liberty opens up high performance sailing to everyone. Even sailed at extreme angles of heel, the skipper remains dry and in control. This is an unique craft that enables safe yet exciting racing or recreational sailing in open waters.

Easy to Sail

- Simple to use joystick steering
- Forward facing adjustable fibreglass seating
- Responsive and manoeuvrable
- Twin canted rudders for control at all angles of heel

Safe & Stable

- 70kg ballast for stability
- Low centre of gravity seat position
- Roller furling mainsail and jib

Options

- Choice of six deck colours
- Servo electric helm and sheet winches
- Range of servo controller types
- Keel lifter
- Shore shuttle
- Boat and sail covers
