

Prepare Template:

7. Print template onto A3 size paper.
8. Cut out the main shape along the thick lines.

Mark Out & Drill Holes:

9. Place template on starboard side (RHS) of keel console.
10. Mark the 3 x drill holes with a 3mm drill bit.

Installing the Fittings

1. Check that holes 'A' & 'B' are 35mm apart.
2. Drill holes 'A' & 'B' with a 3mm drill bit.
3. Check hole 'C' is 15mm from edge of fibreglass.
4. Drill hole 'C' with a 5mm drill bit.

Marking Donut Position:

5. With a rules project down onto the floor the near vertical line which represents the centreline of the keel lifter tube.
6. Mark floor with a pencil line.
